GENERAL INDEX OF TITLES

NOTE: For convenience in reference, titles of articles published in the Plastics Engineering and Technical Sections are repeated and grouped separately at the end of this General Index of Titles (p.4).

A			Month	Page				Month	Page
A conventional house — and plastics are everywhere			December	94	Controlling wall distribution in blow molded parts			August	114
A first for filament winding			May	111	Converting to screw plastication			March	125
A formula for specifying color concentrates			November	142	Cooling curves for extruded PE wire			May	126
A guide to clear sheet forming			March	140	Cooling towers go compact			May	98
A look at the future			January	131	Creep behavior of chlorinated polyether			January	164
A spectacular case for thermoforming			March	85	Curtain coating with polyvinylidene chloride dispersions			September	134
A two-channel extruder screw			January	132	Curtain wall combination: acrylic skins-foam core			December	98
About Public Law 87-794 (Editorial)			June	79	Custom piping at low cost			December	88
ABS eases assembly of flasher unit			July	96	Custom processing forges ahead (Editorial)			December	81
ABS makes entry into British packaging			May	122					
ABS pipe for hot water service			October	114	D				
Accent on reliability (Editorial)			February	79	DAP scores in new market			April	85
Acetal and copolymers			January	108	Definition of a "gentleman" (Editorial)			September	83
Acetal gears cut water meter costs			August	100	Developments in materials (Britain)			April	138
Acetal parts outperform metal at 90% savings			January	125	Don't let down on R & D (Editorial)			August	77
Acetal stuffing boxes replace bronze			November	111	Dow Chemical's Goggin: engineering plus			March	50
Acrylic — overhead and underfoot			August	84					
Acrylics			January	107	E				
Advance report on Macroplastic 1962			September	191	Effect of additives on resistance of PVC to gamma rays			September	172
Advances in technology and uses of rigid urethane foams			October	165	Effects of processing techniques on structure of molded parts			December	146
Advantages of polycarbonate fan components outweigh cost			March	108	Efficiency for trading stamps			August	94
Allied Chemical's DeVore; marketing man			June	46	Electric tools turn to polycarbonate housings			April	80
AMA Seminar on Packaging			July	107	Epoxy tape improves aircraft construction			May	121
An epoxy resin with improved electrical properties			July	139	Everything ABS — but the motor			March	92
Applications in new markets			January	113	Expandable polystyrene cushions for carboy boxes			November	113
Applications progress (Britain)			April	141					
Autogyro gets lift from polycarbonate			May	115	F				
Autos in 1963: plastics' biggest year			November	82	Fabulous inflatables			October	99
					Facts and figures on ram versus screw injection			November	122
B					Ferro Corp.'s Cole: muscles for pennies			February	48
Blow mold design for large irregular shapes			March	144	55-gallon blow-molded PE drum liners — one a minute!			February	92
Blown bottle in foamed jacket makes effective "thermos"			January	126	5th Tokyo International Trade Fair			July	100
Blown drain for pools			July	96	Filament winding advances			February	95
Bonding of silane coupling agents in glass-reinforced plastics			June	133	Filament wound epoxy simplifies pipe replacement			January	125
Boston Foamed Plastics Conference			July	104	Filament wound internal pressure vessels			March	135
Britain's Windsor: trail blazer extraordinary			May	48	First coffee maker with blow-molded polypropylene body			March	107
					Flame process for film perforation			September	145
C					Flame retarder reduces colorant costs, gives brighter hues			November	110
Caddy for cleaner accessories molded of PP			May	115	Fluorocarbon-asbestos keeps out bacteria. For versatility in building: sandwich panels			May	100
Cartridge container offers two-component sealing the simple way			April	94	Foam-insulated RP storage bins for ice machines			December	104
Celanese Corporation's Blancke: Internationalist			October	50	Formed polystyrene for cooling tower			February	85
Cellular Plastics — Today's Technology			April	144	Formed tray for use at 250°F			November	93
Cellulosics			January	93					
Choosing the right coloring method			November	94	G				
Closure converts bubble bath container to toy			May	119	Giant TFE moldings			June	94
Color in plastics is everybody's business			September	84	Glass-resin joint strength studies			September	161
Coloring thermoplastic resins			May	107	Glider costs go down with glass-reinforced polyester			April	93
Coloring thermosetting resins			June	89	Guide to RP molding presses			October	126
Compounding of low density vinyl foams: Part 1			March	151					
Compounding of low density vinyl foams: Part 2			April	127	H				
Comparison of properties of flexible thermoplastics			May	143	Hard surface for melamine			November	102
Continuous flow ram type extruder			March	130	Here come the beverage cases			August	78
Continuous RP sections produced automatically			September	93	High density PE cap for bolt heads protects against corrosion			June	108
Controlling extruded film thickness with beta gages			May	134	High density sheet for fabricated beverage case			May	122

	Month	Page
High fidelity at low cost	July	88
High impact methacrylate in two-color engraving stock	December	105
Higher priced urethane foam reduces cost	September	126
House siding extruded of rigid polyvinyl chloride	November	111
How hot is hot?	February	105
How resin structure affects extrudability .	January	140
How to choose the right colorant for the right resin	December	90
How to design plastic bearings — fast . .	April	109
How to minimize puckering in PE cast film	October	142
How to mold low pressure phenolic	February	129
How to process elastomeric urethanes . . .	December	117
How to save on laminated spacers	December	107

I

I.C.I.'s Swallow and Sisson: industrial statesmen	January	48
Impact for polypropylene	May	90
Impregnation of metal castings	August	105
Inauguration of the Plastics Institute of America	March	181
Index of phenolic resin cure	April	102
It's a snap with acetal!	December	87

K

Know your colorant characteristics	March	88
--	-------	----

L

Lessons from operation school burning (Editorial)	November	81
Lightweight sandwich for heavyweight skimmer	July	91
Low cost PP kit boosts sales	January	126
Low cost molds for short runs	November	138

M

Machining Plastics: Part 1	July	110
Machining Plastics: Part 2	August	109
Making large dielectric laminates	June	122
Markets for new materials	November	104
Markets for RP pipe	August	88
Melamine-phenolic decorated with printed foil	June	100
Metal-less wall for Air Force	October	113
Methyl methacrylate photo plate	September	122
Microfiber reinforcement of polytetrafluoroethylene	January	151
Molded acetal makes a rugged refrigerator shelf end	February	102
Molded acetal replaces fabricated metal in pegboard fixtures	June	101
Molded and film plastics in portable solar grill	June	107
Molded melamine juicer	October	120
Molded PE litter basket	June	85
Molded fluorocarbon screw cap replaces glass stopper	November	113
Molding of hard-skinned PS foam balls . .	October	138
Molecular sieves in epoxy resin tooling . .	November	159
More defense at less cost	August	92
More lift with RP prop	May	93
More versatility in rigid urethanes	July	74

N

Needed — more emphasis on equipment and plant engineering	April	101
New approach to vacuum packs for coffee: film lamination	June	104
New blown film cooling ring	July	122
New building concepts based on polystyrene foam	April	96
New concept for miniature drives: polyester film	July	95

Month	Page
-------	------

New design in lighting	December	82
New face for TV tubes	October	90
New ideas from Seattle	September	105
New life in thermoforming	March	82
New method for connecting PVC pipe . . .	September	118
New polymer is outstanding for high temperature applications	October	110
New styling for laminated furniture	October	113
90% fewer parts with plastics!	March	95
19th S. P. E. technical conference	February	152
1962 — Banner year for machinery sales .	March	117
1962 engineering highlights	February	106
Now it's powdered PE for displays	March	104
Nylon	January	109
Nylon parts solve design problem at a saving	September	126
Nylon strapping tape adjusts to package shrink	June	108
Nylon tires track better	December	105

O

Oil can be packaged in PE bottles	December	101
On conference papers (Editorial)	March	81
Oriented methacrylate sheet formed cold .	October	117

P

Particles, fibers coated by polymerization	August	97
Parts assembly by molding	August	85
PE "balloon" insulator improves cable performance	May	116
PE slip-on sleeve cuts wrap cost for cast iron pipe	March	107
PE-lined underwater pipe cuts cost	September	128
Phenolics	January	101
Phenoxy — a new thermoplastic	November	169
Plasticizers from straight chain alcohols .	June	141
Plasticizer markets — 1961	September	183
Plastics engineering in the USSR	August	139
Plastics in Europe today	September	192
Plastics in Great Britain	April	135
Plastics now standard materials of design	July	82
Plastics pipe: a new plateau (Part 2)	September	98
Plastics trends in packaging	June	80
Plastics work wonders with wood	April	86
Plaques cast to last	October	106
Plating process increases production, lowers cost	October	111
Pneumatic cylinder molded of polypropylene	April	93
Polycarbonates	January	110
Polyethylene bottles for children's bath foam double as toys	June	100
Polymers for spacecraft	August	123
Polyolefin surface treating methods	November	126
Polyolefins	January	87
Polypropylene replaces aluminum in vending part	February	99
Polypropylene upgrades closet accessories	September	122
Polystyrene runs rings around metal	September	108
Polystyrene tickets for laundromat machines	October	118
PP lighting fixtures are heat resistant, shatterproof	July	98
Precision molded tiny parts	October	92
Prefabricated sandwich panel for wrap-around bath wall	February	102
Pressure effects in the spiral mold	December	112
Production tops 7.8 billion pounds	January	84
sales hit 7.4	September	175
Production totals for 1962	May	84
Progress in PE extrusion coating, Part I .	June	95
Progress in PE extrusion coating, Part II .	June	95
Promising prospects for powder processing	April	74
PVA film makes water soluble laundry bag	July	98
PVC-coated fibers take off	May	96

INDIVIDUAL SUBJECTS

(ab) = Abstract; (ma) = Machinery and Equipment; (pl) = Plastiscope

IMPORTANT: Annual reviews of materials, processing and applications are not completely cross-indexed here because of their survey nature. Departments such as "U.S. Plastics Patents," "Letters to Modern Plastics," and "Literature" are

not indexed, except for books under "Book Reviews". Also omitted from this index are those Plastiscope items devoted to company news, personnel news, and similar items of timely news value, but not considered as reference material.

Machine, Diversamatic (ma)	March	54
Machine, Emerson Walker (ma)	June	50
Machine, Euro-Matic (ma)	November	52
Machine, Producto (ma)	November	56
Machines, Jyrak automated (ma)	January	50
Machine, rigid PVC bottles (ma)	August	50
Machine, Sterling (ma)	May	54
Machine, Strong (ma)	May	52
Machine sales, 1962	March	120
Machine, small bottles, Conapac (ma) .	June	54
Multiple station rotary machines for PVC bottles	June	116
Pipe, custom	December	88
Polyethylene production by	January	202
Surface improvement (ab)	June	58
Trimmer, Brown bottle (ma)	March	56
Urethane, elastomeric	December	117
Wall distribution, control of	August	114

BOATS

ABS hull, double-wall	September	96
Hydrofoil, RP components for	July	91
Stuffing boxes, acetal	November	111

BONDING - see Adhesives, Heat Sealing, Ultrasonics

BOOK REVIEWS

A Concise Guide to Plastics, 2nd Edition by H. R. Simonds and J. M. Church . .	July	56
Alkyd Resin Technology - Formulating Techniques and Allied Calculations, by T. C. Patton	February	56
Block and Graft Copolymers, by R. J. Ceresa	December	54

	Month	Page
BOOK REVIEWS (Continued)		
Electric Encapsulation, by M. C. Volk, J. W. Lefforge, and R. Stetson.	April	64
Introduction to Polymer Chemistry, by John K. Stille.	February	56
Mechanical Properties of High Polymers, by L. E. Nielsen.	November	62
Physical Properties of Polymers, by F. Bueche.	October	66
Plastics Extrusion Technology, by Allan L. Griff.	October	66
Polyacetal Resins, by Marshall Sittig.	June	60
Polymer Processing, by James M. McKelvey.	September	64
PVC Technology, by W. S. Penn.	January	60
Radiation Chemistry of Polymeric Systems, by A. Chapiro.	May	60
Rheology of Polymers, by E. T. Severs.	March	60
Symposium on Standards for Filament-Wound Reinforced Plastics, ASTM Special Technical Publication No. 327.	August	62
Unsolved Problems in Polymer Science, by Frank R. Mayo.	January	60

BOTTLES

Blow molding machine (ma).	August	50
Blow molding machine (ma).	August	54
Blow molding machine, Conapac (ma).	June	54
Closures, molded fluorocarbon.	November	113
Closure, styrene.	May	119
Closures, PE (pl).	August	204
Finishing machine, Producto (ma).	September	52
Oil packaging polyethylene.	December	101
Rotary blow molder for, PVC.	June	116
Sprayer, polyethylene.	February	90
Thermal, PE and styrene foam in.	January	126
Trimmer, Foremost (ma).	June	50

BUILDING

Applications in (ab).	May	58
Beach cabin, vinyl urethane sandwich.	June	93
British applications.	April	141
Ceilings, multipurpose.	December	82
Ceiling pans, RP concrete.	February	84
Cooling tower, rotary, use of styrene or PVC sheet in.	May	98
Curtain-wall panels, all-plastics.	December	98
Fire retardants, study of (ab).	November	58
Flame resistance test, vinyl panels pass (pl).	November	45
Flooring, epoxy bonding agent for terrazzo (pl).	November	246
Hardwood siding, Videne laminated (pl).	August	202
House, plastics in conventional.	December	94
Inflatable structures.	October	103

Oxidizability, inconsistencies in (ab) . .	December	202
PE, molecular weight (ab)	June	58
Phenolic resin cure, index of	April	102
Photoelastic stress analysis techniques (ab)	January	56
Pipe, study of (ab)	December	202
Piezo-susceptibility by inductance potentiometer (ab)	August	58
Pyrolyzates, gas chromatographic analysis of (ab)	May	58
Research on, NBS	October	149
Standard tests for electrical properties (ab)	April	60
Supersonic (ab)	October	180
Thermomechanical effects under constant load (ab)	September	206
Thickness of transparent coatings (ab) .	April	60
Ultra-thin sections, preparing (ab) . .	November	178
Viscometers (ab)	May	58
Vapor level, TDI (ma)	December	50
Xeroradiography for (ab)	September	60

TEXTILES - see Fabrics

THERMOFORMING - see Sheet Forming

TOOLS

Cutting, study of mechanism of (ab) . .	October	62
Depth of cut, effect on operations . . .	August	109
Saw, Hendrick trim (ma)	September	54
Templates from acrylic photo plates . .	September	122
Thermal effects of cutting	August	112

TOTE BOXES, PLASTICS FOR November 98

TRANSFER MOLDING -

see Compression Molding

TRANSPORTATION -

see also Automotive, Aviation, Highways

High-temperature plastics for (ab) . . .	April	60
Hydrofoil, RP components for	July	91
Monorail cars, sprayed-up	November	115
Plastics uses in	January	119
Railroad car, filament wound	May	111

TUBING - see Pipes, etc.

Heat shrinkable PVC (pl)	August	218
Nylon 11 (pl)	August	220

U

ULTRASONICS

Literature on	February	177
Sealer, Ultra Sonic Seal, Inc. (ma) . . .	September	56

ULTRA-VIOLET

Absorbers in space environment (ab) . .	February	58
Photolyzable disappearing film (pl) . .	February	202

UREA

Annual report on	January	111
Coloring methods for	September	85
Lighting fixtures, use in	December	82

URETHANE

Automobile parts of	November	82
Boron-lead-urethane radiation shield (pl)	October	218
Coatings, protective (ab)	January	56
Colorants, choosing	December	90

URETHANE (Continued)

Coloring methods for	September	85
Coloring of	June	91
Elastomeric, processing	December	117
Elastomer, sheet formed possibilities of	March	85
Expansion joint filler, foam (pl)	April	199
Foam, advances in rigid	October	165
Foam covering for inflatables	October	103
Foam, E-caprolactone polyester derived (ab)	June	58
Foam dispenser (ma)	August	56
Foam in air conditioner	October	114
Foam insulation for soda dispenser . .	January	128
Foam insulation, rigid	February	101
Foam-in-place processes and applications, in rigid	July	74
Foam, new techniques in rigid	July	74
Foam, physical properties of (ab)	February	58
Foam, self-extinguishing (pl)	April	201
Foam, silicone-glycol stabilizer for (pl)	August	220
Foam, SPA machine for making (ma) . .	October	60
Foam sandwich for beach cabin	June	93
Foam, vending machine use of	September	126
Frothing techniques and applications, in rigid	July	78
Literature, review of	February	138
Shoes, inner soles for	March	103
Slab stock techniques and applications in rigid	July	147
Spray-up methods and applications in rigid	July	150
Strip sealant, foam (pl)	April	199

V

VACUUM FORMING - see Sheet Forming

VENDING

Diallyl phthalate components	April	85
Machine part, polypropylene	February	99
Machines, urethane foam in	September	126

VINYL

Automobile use of	November	82
Ball valve, PVC (pl)	August	207
Bottles, rotary blow molder for	June	116
Butyralin TV safety shields	October	90
Chloride, annual review of	January	94
Chloride consumption, 1958-62	January	96
Chloride molding and extrusion uses, 1961-62	January	97
Clothing, growth of protective (pl) . . .	December	210
Clear rigid (pl)	April	190
Coated fibers	May	96
Coatings at World's Fair	September	105
Colorants, choosing	December	90
Coloring methods for	September	85
Coloring of	May	107
Construction applications (pl)	April	45
Decomposition, theory of radiation (ab)	September	60
Dry cleanable (pl)	August	216
Emulsion and suspension, comparison of (ab)	December	52
Export-import situation 1962 (pl) . . .	July	180
Film, shrink (pl)	November	240
Film for packaging	June	148
Film, water soluble, for laundry bag . .	July	98
Flame resistance, building panels have (pl)	November	45
Flexible records, use in	July	88
Floor coverings	December	94
Floor coverings, formulations for (ab) .	December	52
Foam, compounding low density	March	151
Foam, low-density, compounding of . . .	April	127
Foam plastisol strippable coating . . .	April	82
Foam, sodium borohydride in (ab) . . .	September	60
Gamma rays, resistance of PVC to . . .	September	172
Heat-resistant, in pipes (pl)	June	41

	Month	Page
VINYL (Continued)		
Heat shrinkable tubing (pl)	August	218
High-temperature formulations of (ab)	September	60
Hose, flexible PVC	September	114
Inflatable domes, swimming pool	October	103
Latex, copolymer (pl)	August	230
Lead in, determining (ab)	February	58
Lighting fixtures, use in	December	82
Literature, review of	February	140
Outdoor exposure, stabilization of	May	156
Pipe, chlorine handling (ab)	October	62
Pipe, sheet, film uses, review of	January	97
Pipe suppliers, list of	September	100
Pipe, socket joint for	September	118
Plastisol casting, rotational (ab)	December	52
Plastisols, evaluation of (ab)	June	58
Polymeric plasticizers (pl)	July	191
Powder molding	April	74
Powder, PVC	January	210
Price history, 1955-1962	September	185
Price movements in (pl)	July	37
Price situation in (pl)	June	39
Production of, 1949-1961	September	183
Production and sales, first quarter		
1963 (pl)	May	41
Raceways, extruded rigid	June	88
Rigid PVC plumbing, use in experimen-		
tal house	June	86
Rigid PVC, situation in (pl)	April	45
Sales, vinyl chloride 1962 (pl)	December	39
Sheet formed applications of	March	84
Sheet for rotary cooling tower	May	98
Sheet, use in window wall panels	May	116
Shoe parts of	March	101
Shoe uppers (pl)	June	208
Shoes	February	86
Siding, extruded building	November	111
Stabilizers, efficiency of (ab)	October	180
Stabilizers, synergistic effects of	August	145
Stepdown panels (pl)	August	210
Strippable coatings	April	82
Structural materials, rigid (pl)	June	39
Thermal degradation of	June	146
Thresholds (pl)	August	230
Tubing, clear (pl)	April	190
Uses of, 1956-1961	September	185
Wire insulation, dry blend for (pl)	April	186

	Month	Page
VINYL FLUORIDE		
Film for outdoor signs	July	168
Film lamination with nylon	October	189
Film, uses of Tedlar (pl)	October	47
